

# HOW TO: Download and Play Audio Books

First you will need to search for the book you would like to download.

Once you have found a title that you would like to download, you may want to add it to your **Wish List** so that you can choose to download the title at a future time.

The screenshot shows a search results interface. At the top, there is a grey header with the text "Search Results". Below this is a light blue bar with the text "Advanced Search: Click here to refine your search results...". Underneath is a navigation bar with a left arrow, a box containing the number "1", and a right arrow. To the right of this is a dropdown menu labeled "Title: A-Z" with a downward arrow. Below the navigation bar is a row of buttons labeled with letters from A to Z, with a "#" button on the far left. Below this row is a horizontal line. Under the line, there is a section titled "Customers with similar searches were also interested in" followed by the text "[middlesex](#), [dan brown](#)". Below this is a product listing for the book "Atonement" by Ian McEwan, narrated by Isla Blair. The listing includes a book cover image, a star rating of five stars, and a "WMA" logo. At the bottom of the listing are four buttons: "Sample", "Wish List" (highlighted with a red box), "Download", and "Unavailable".

Once a title has been added to your **Wish List**, you can review your titles, and choose to use a Download Credit in the future to Download the title. When you are ready to Download the title simply go to your **Wish List**, and click on the green Download button.
