

How To: Download and Play iPod compatible audio books

First you will need to search for the book you would like to download. You may want to search through our iPod Audiobooks section, or simply search for a title that you are interested in.

Once you have found a title that you would like to download, you may want to add it to your **Wish List** so that you can choose to download the title at a future time.

Once a title has been added to your **Wish List**, you can review your titles, and choose to use a Download Credit in the future to Download the title. When you are ready to Download the title simply go to your **Wish List**, and click on the green Download button.

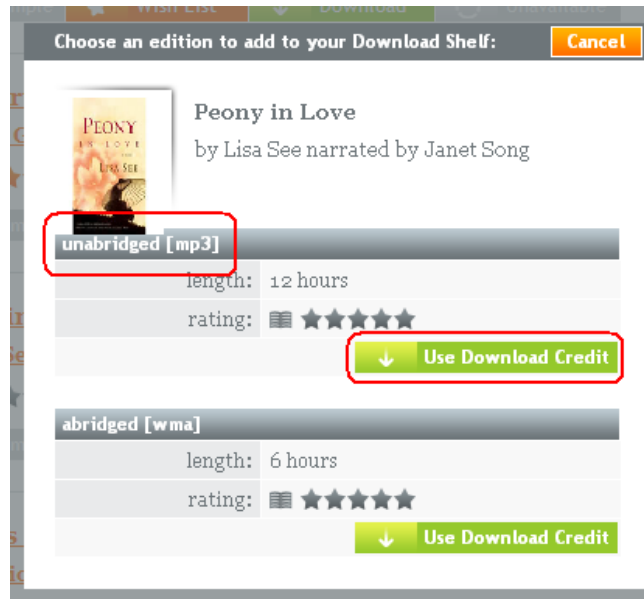

These are all the books you've added to your Wish List. From this list, you can see which titles are available to rent, or download

Peony in Love	 CD  WMA  iPod	  

If however when searching for a title you find one and you are sure that you would like to download the title now, simply click on the green Download button. You may then be prompted to confirm which version you would like to download. Please choose the MP3 version and click on Use My Download Credit.

Once you click on the green Download button, you will be prompted to confirm that you wish to use a Download Credit towards this title.

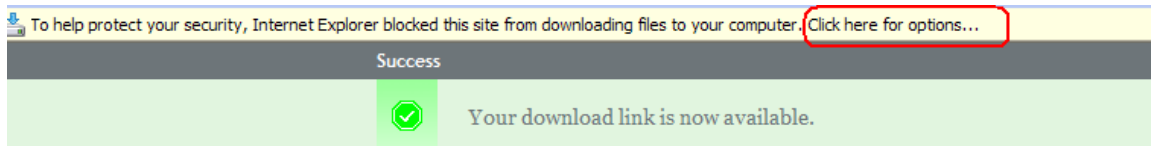

Now you will need to view the books you have added to your Download Library and Download the book. To access your Download Library, click on the **My Books** tab. The book that you have used the credit on will now be listed in your **'Download Library'**.

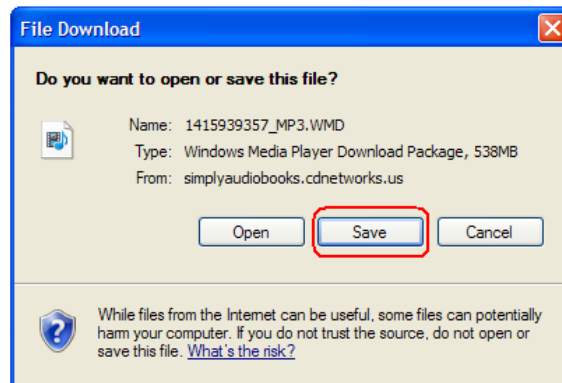

Once there click the green **'Download'** button next to the title of the book you would like to download to begin the download process.

title	edition	claim date	actions
Peony in Love	Unabridged	Unclaimed	
Heaven's Price	Unabridged	Jun 17, 2008	 

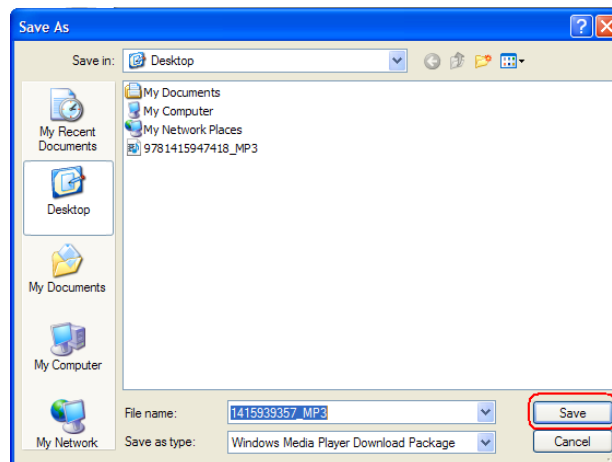

Once you click the green **'Download'** button, you will then be notified that the file is ready to download. If a security drop down box appears, please click on the drop down setting and choose Download File to start the download.

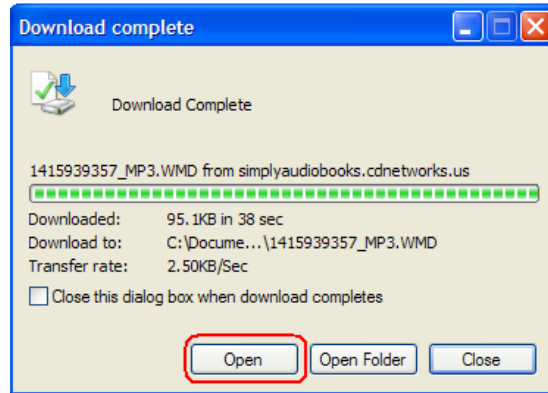

A pop up window will appear asking you to do one of two things. Please save the file to your PC, by clicking on the save button.

Please select the appropriate location to save the file and then click Save.

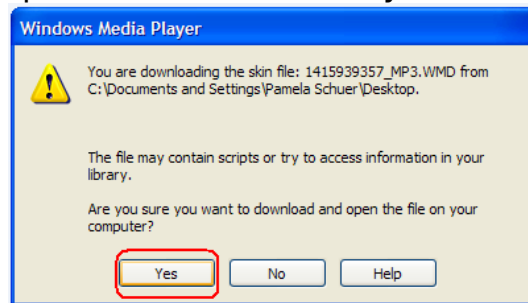

Once the download is complete, select the open option to open the file.

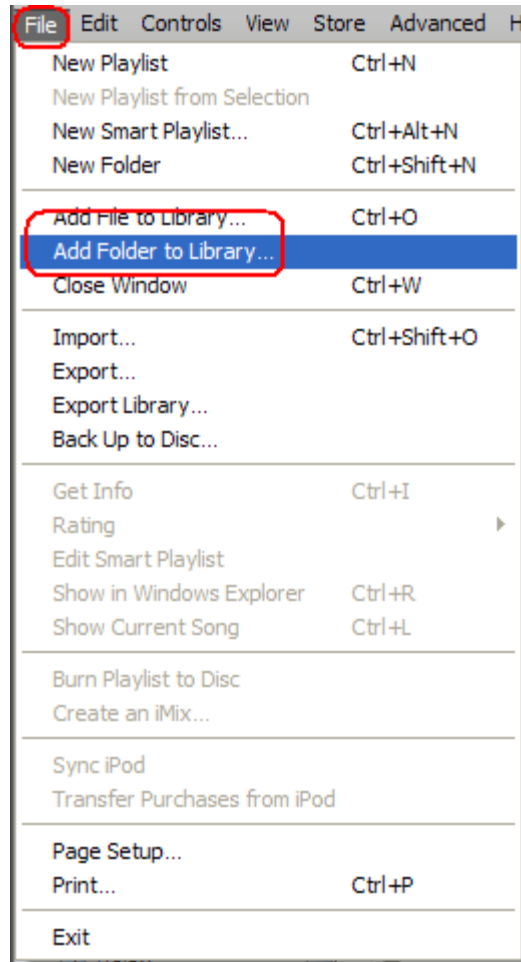

The File will now begin to extract to Windows Media Player. This step is automatic, once you select the open option, your PC will automatically start extracting the audio tracks into Windows Media Player.

Once all the tracks have been extracted into Windows Media Player, you may be confronted with a warning message about Script Files. Click **'Yes'** as the skin file and scripts are not harmful to your PC.

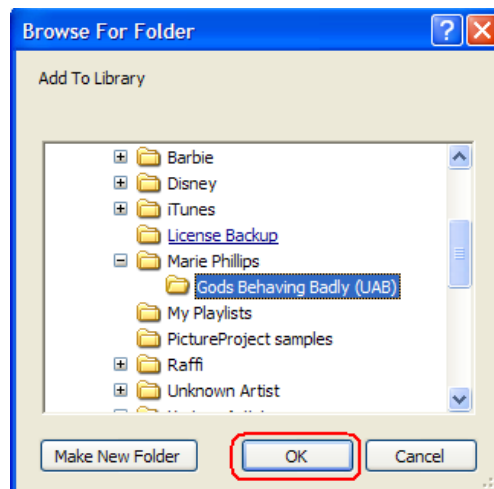

Once the File has fully opened in Windows Media Player, simply close the Windows Media Player and open your iTunes.

In iTunes choose the File tab and then select the Add Folder.

From this new pop-up window, please choose the folder containing your audio book (it may be listed under the author's name or as Artist followed by some numbers) and click OK to add the title to your iTunes.

You have now added the title to your iTunes library and can sync it to

your iPod.
